Saturday thru Monday March 24, 25, & 26, 2018

We are very pleased to welcome Nancy Reyes back to DTCCC for these K9NW workshops. Using motivating drills, Nancy will discuss how environment -- sunlight, air currents, weather -- affect how odor moves and pools, and how it can affect interior searches. She will also discuss hide placement for your own practice.

Focus is on interiors and containers, covering the search area and calling "alert" with confidence. Nancy will also discuss hide placement for practicing on your own. Vehicles/exterior work weather permitting. Teams should have birch searching experience with all four elements. Pairing is OK.
